UK Address: Amber House Ltd, BN8 5FF, UK

did you know that 3.6 billion plastic toothbrushes are produced every year? Shockingly, the majority of these will end up in oceans and landfills. Thanks to you, this won't be one of them.

THERE IS NO PLANET B. Humble Brush has a handle made from 100% biodegradable, sustainably grown bamboo – the fastest growing plant on earth. Bamboo is naturally antibacterial which means that there is no need to use fertilizers or pesticides during its cultivation. Additionally, every Humble purchase goes towards funding oral-care projects for the benefit of children in need. **DENTIST APPROVED.** Professional oral care developed by dentists. **100% RECYCLABLE PACKAGING.** The box and inside wrapper are compostable and recyclable as paper. **SAFE & CERTIFIED.** Vegan, cruelty-free and verified Bisphenol A (BPA) free.

there is no planet B.
