

FORMULA OVERVIEW

Designed to support male health with a research informed blend of nutrients and botanicals, this complex takes a comprehensive yet restrained approach. Three capsules deliver a serving that combines D aspartic acid with extracts of black maca root, fenugreek, nettle and shilajit, along with zinc, magnesium, selenium and vitamins B6, B12 and D3. Zinc contributes to normal fertility and testosterone maintenance, magnesium supports muscle function, and selenium aids spermatogenesis—all recognised benefits. BioPerine® black pepper is included to enhance absorption, and all ingredients are encapsulated in vegan hypromellose shells to avoid animal products and unnecessary additives. Each resealable pouch contains 60 servings. Integrating this complex into daily routines is straightforward, offering a measured, taste-free way to complement a balanced lifestyle. Made in the EU with non-GMO ingredients and produced under GMP standards, it reflects Alpha01's dedication to clean, responsible supplementation.
