Warning: Causes serious eye irritation. Keep out of reach of children. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands thoroughly after handling. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If medical advice is needed, have product container or label at hand. Do not use on aluminium or woods containing tannins.

Storage: Reseal bag after use. Store in a cool, dry place.
Packaging: Resealable paper bag & home compostable plant-based film. 100% home compostable packaging, plastic-free.

How to use
From removing stains to unclogging drains and boosting laundry detergent, soda crystals are a powerful addition to your everyday cleaning essentials. They are especially effective on heavily soiled surfaces, floors, and tough on grease and blocked pipes.
clean surfaces, floors, ovens and inside fridges: Dissolve 200g of soda crystals in 500 ml of water. Spray or wipe the solution onto surfaces. Leave stubborn marks to soak for a minute or two, then wipe down with a clean cloth.
greasy pans: Dissolve 200g of soda crystals for every 500 ml of water, and leave greasy pans to soak in the solution for a few hours. Wipe clean.
cleaning washing machines: Run a hot wash with nothing but 250g of soda crystals added to the detergent dispenser.
boost Laundry detergent: Add 2 tbsp of soda crystals to your detergent dispenser to soften water and aid cleaning.
cleaning toilets: Neutralise odours and clear limescale by pouring 300g of soda crystals down and around the bowl. Leave overnight before flushing away.
blocked Pipes: Pour 1 cup of crystals down the plughole and flush through with hot water.
