

BALMONDS

redefining natural skincare

Balmonds Omega-Rich Cleansing Oil

100% natural cleanser for sensitive skin

with rosehip + calendula

The Balmonds Omega-Rich Cleansing Oil USP

Beloved by professional makeup artists for its exceptional effectiveness at removing heavy makeup, this pure and gentle blend of nourishing plant-based oils is ideal as a cleanser for skin that needs extra TLC, particularly ageing, fragile, or sensitive skin. It is powerfully effective in removing daily dirt and balancing the skin's natural oils, and because it is oil-based and made with omega-rich rosehip and safflower, it nourishes and conditions as it cleans.

The non-comedogenic formula means that, even as an oil, it won't clog pores or strip natural oils from the skin as soaps or foaming cleansers can. It contains absolutely no perfumes, preservatives, essential oils, nut oils, or synthetic ingredients, making it perfect for reactive, allergy-prone, dry, or depleted skin, as well as those prone to eczema, psoriasis, perioral dermatitis or acne.

Balmonds Omega-Rich Cleansing Oil is 100% natural, cruelty-free and Vegan Society certified

Key Ingredients

Calendula: known to support healthy tissue regeneration and calm irritated skin

Rosehip: rich in essential fatty acids to support the natural cycle of skin cell regeneration

Safflower: contains vitamins E & K to provide barrier support for depleted skin
