

A man and a woman are shown from the chest up, drinking from clear plastic water bottles. The man, in the foreground, is wearing a blue t-shirt and has a green cap on his bottle. The woman, slightly behind him, is wearing a white tank top. They are standing on a bridge with a white railing, overlooking a body of water. The background is a soft-focus sunset with warm orange and yellow light. The overall mood is active and refreshing.

DiaCare

# A Unique Oral Electrolyte Solution

## UNIQUE FOOD SUPPLEMENT

# About DiaCare

---

For Children and Adults suffering from diarrhoea, fever or other conditions which can cause loss of body fluids.

DiaCare is scientifically balanced blend of glucose electrolytes, minerals and probiotic fibres (Lactobacillus Rhamnosus GG).

## What is DiaCare?

- **Magnesium** which contributes to electrolyte balance.
- **Chloride** which contributes to normal digestion by production of hydrochloric acid in the stomach.
- **Carbohydrate** electrolyte solution enhances the absorption of water during physical exercise.

DiaCare

UNIQUE DUAL CHAMBER SACHET

## Why DiaCare?

DiaCare allows for dual benefits: DiaCare is a powder formulation of oral suspension. It's unique dual chamber sachet allows for two independent benefits:

### Oral Hydration

Contains electrolytes which tackles the problems associated with dehydration.

### Good Bacteria

Lactobacillus Rhamnosus GG

Contains good bacteria which helps to swiftly restore gut health to normal.

## KEY SELLING POINTS

## Why DiaCare?

---

- 💧 **Probiotics acts faster** than bacteria: effectively colonises gut within 5 -7 days, outnumbers pathogenic species. *(National Institutes of Health Office of Dietary Supplements).*
- 💧 **Probiotics are more durable** than bacteria: both in antibiotic environment and with gastric acid.
- 💧 **Mounting experience** with the Lactobacillus Rhamnosus GG formulation.
- 💧 **Clinical trials** show people taking Lactobacillus Rhamnosus GG are **protected against bacterial infections.**

**Dual sachet composition**  
DiaCare is a powder formulation of oral suspension. DiaCare box consists of 12 dual-chambered sachets (12 servings).

Each sachet consists of two chambers

**Salt chamber**

**Probiotic chamber**

**Probiotic chamber**  
Maltodextrin; Lactobacillus Rhamnosus GG (DSM 21690).

**Salt chamber**  
Dextrose; Sodium Citrate; Potassium Chloride; Sodium Chloride; Flavouring (orange); Magnesium Hydroxide; Acidity Regulator: Citric Acid (E330); Anti-Caking Agent: Silicon Dioxide (E551); Sweetener: Sucralose (E955).

## UNIQUE FOOD SUPPLEMENT

# What Can DiaCare Help With?

**Oral Rehydration is useful in cases of:**

- 💧 Diarrhoea
- 💧 Persisting vomit
- 💧 Fevers accompanied by intense sweating
- 💧 General Hydration
- 💧 After Sports and Exercise
- 💧 Travel and Hot Climates

## STATEMENT

“

With winter illnesses rife at the moment it is extremely important to care and protect all your families gut health over the coming months and beyond.

DiaCare offers the ideal option for busy families as it provides two independent benefits, which is what makes it so unique. Electrolyte oral hydration will help aid moderate dehydration caused by diarrhoea, vomiting, fever or other such conditions, while the probiotic element, with continued use, will act as a barrier in protecting your family against bacterial infections and maintaining gut health.

”
