

## **Description**

### **A quick-absorbing, multitasking hydrator.**

Lightweight and versatile, this non-GMO oil promotes hydration, softens dry skin and helps improve the look of wrinkles. It also smooths hair without weighing it down.

Squalane oil is the saturated form of squalene—a natural emollient that makes up about 12% of the lipids in human sebum. Our olive-derived vegan version defends against moisture loss, promotes the look of firmness and leaves skin feeling silky-soft.

## **How to use**

**Face & Body:** Mix with carrier oil and apply post-shower for maximum hydration, giving extra TLC to dry elbows and knees.

**Hair:** Add 2-3 drops to shampoo or carrier oil, apply to wet hair, pull through ends, and rinse.

## **Ingredients**

100% pure Squalane Oil.
