Pure

LAVENDER HONEY

from

LITTLEOVER APIARY™

340g

Littleover Apiaries™

All of our honey is cold extracted, cold filtered and is unblended to protect the natural proteins and enzymes in this premium honey. This Honey is produced by Bees in Hives that are situated in the lavender fields of France and Spain, at the time when the fields are in full bloom. This is one of the most highly prized honeys of the world famous for its lightly scented aroma and superb flavour. This is perfect for spreading or when something rather special is required. An absolute must for a hot buttered scone or crumpet.

Littleover Apiaries are committed to sustainable farming and the care of our environment whilst producing our honeys
