

Our Union

Union was founded to raise the standards of specialty coffee-sourcing directly from farmers, paying fair prices, and building lasting partnerships.

Roasted fresh in our East London roastery, every batch is crafted with care. Whether in cafes or at home, we're here to help you discover the joy of specialty coffee.

Jeremy Torz *Steven Macatonia*

Jeremy Torz & Steven Macatonia
Founders & coffee addicts

Our Union Direct Trade philosophy of coffee sourcing is more than just paying a fair price, it means we work in partnership with farmers to improve both quality of coffee and farmers livelihood, long term.

Our Roasting & Quality

We hand-roast our coffee in small batches in our East London roastery to develop delicious flavour and aroma for each individual coffee. Our qualified Q-graders meticulously test each roast to ensure that every batch is consistent.

Our Coffees

We offer a diverse range of exclusive, high-quality single origins and blends – each carefully selected and roasted for either filter or espresso. You'll also find a rotating selection of seasonal microlots, available for a limited time only.
