Description:

Our True Veda Organic Pomegranate vegetable capsules are unique as they contain Punicalagins. Punicalagins are extracted in a natural way from Pomegranate and are water-soluble, highly bioavailable and absorbed by the body at a rate of up to 95%! No other supplement gets close! When punicalagins are preserved and then consumed, they can offer the researched benefits of ellagic acid, which can only be absorbed in this way. Punicalagins are 100% water-soluble, highly bioavailable, and supported by safety data. They are shown to possess a high absorption rate up to 95% and punicalagins offer a powerful kick on their own to really help and nourish your body. The best part of it all – it's natural! Unlike other brands, we use a Natural Fusion Extract® process so we can promise you that we will never leave any type of chemical residue in our finished products. With the technology we have developed we can extract all the plant's active components and nutrients in the most natural way using only water and clean carbon dioxide gas.

General Benefits:

The supplement contains Punicalagins and punიცic acid - this is better than Pomegranate juice for delivering benefits to the body. It can help to improve cardiovascular health and protect against illness & symptoms of a poor heart. Research has shown that it can provide antioxidant protection, support healthy ageing and the appearance of skin. The 450mg capsule is used as powerful DNA protection- it can help maintain healthy cholesterol and blood pressure levels.
