

Directions: Please read the enclosed Product Information Sheet for full details.

How to take: Florisene® tablets should be swallowed whole with water half to one hour before food or on an empty stomach.

How much to take: Florisene® should be taken at 1 tablet daily. In trial conditions, women using Florisene® noticed some reduction in hair shedding three to four months after starting the supplement. It can take up to 6 months or longer to see the full benefit.

Food supplements should not replace a balanced diet and healthy lifestyle.

WARNINGS: Do not exceed the stated dose.

Do not take any other iron containing supplements whilst taking Florisene®.

If you are breast-feeding, pregnant or planning to become pregnant consult your doctor before taking Florisene®.

Do not take Florisene® if you are taking oral antibiotics. Florisene® should not be taken within 2 hours of taking any medication, including indigestion remedies.

This amount of iron may cause mild stomach upset in sensitive individuals.

This product contains iron, which if taken in excess, may be harmful to young children.

LAMBERTS®

THE PROFESSIONAL RANGE

Is Florisene® for me?

Do you have less hair in your 'pony tail' or less hair to clip up than you used to or have you noticed an increase in the number of hairs lost when shampooing, brushing or combing your hair? If so, Florisene® could be of real help.

Florisene® is for hair loss which is evenly distributed (this may not be noticeable to anyone else).

Florisene® will not help hair loss which follows female pattern baldness, otherwise known as genetic hair loss, characterised by hair loss on the top of the head. Nor will it help male pattern baldness.

Florisene®

to maintain normal hair growth
