INDICATED BELOW

PACKED FULL OF GOODNESS

Lifestream Wheat Grass is a 100% pure certified organic, wholesome green food made from powdered leaves of young Wheat Grass plants (*Triticum aestivum*).

SUN-GROWN IN NEW ZEALAND FOR PEAK POTENCY

Lifestream Wheat Grass is grown slowly through summer for around 90 days, accumulating nutrients and storing them in their leaves until they reach their nutritional peak. It is then harvested at peak potency and 'flash air dried' in minutes to ensure the nutrients are not damaged or compromised. This is shown by our rich Chlorophyll content, which is a good indicator for correct growing practice, high quality plants and gentle processing. We also mill our plants in an ultra fine particle size to ensure easy mixing and absorption.

GUARANTEED PURITY AND QUALITY

Lifestream Wheat Grass is NZ grown, 100% certified organic, vegetarian/vegan, gluten free, dairy free, with no genetic modification used and contains only the Wheat Grass plant. We do not use any bulking agents like corn syrup solids, rice flour or genetically modified maltodextrin. Lifestream Wheat Grass is free of pesticides, chemicals, preservative, additives and fillers.

Best before (end)

Store below 30°C. Keep dry and tightly sealed.
Packaged in New Zealand from local ingredients.
