

ACTIVE

Promotion of Healthy Gums and Total Oral Care

Gently removes plaque, whitens & polishes the enamel

Innovative SP.WHITE system

NATURAL PAPAYA ENZYME PAPAIN cleaves the peptide bonds of protein molecules in dental plaque, softening the buildup for easier removal. PVP (POLYVINIL-PYRROLIDONE) promotes the dissolution of the protein-lipid base of dental deposits. As a film-forming component, it covers teeth with a protective layer that supports long-term cleansing. ROUNDED POLISHING PARTICLES OF SILICA polish tooth enamel to a radiant shine

SP.WHITE
SYSTEM
WHITENING
FORMULA

Remineralization & enamel restoration

CALCIUM GLYCEROPHOSPHATE

is one of the most effective sources of calcium ions, help to strengthen dental enamel and activate the processes of remineralization

Protects against tooth decay

SODIUM MONOFLUOROPHOSPHATE
(1000 ppm)

Promote gums health

BERGENIA CRASSIFOLIA LEAF EXTRACT, BAIKAL SKULLCAP ROOT EXTRACT, SPIRULINA PLATENSIS EXTRACT, A AND E VITAMINS

Contains
fluoride
(1000 ppm)

Free from: triclosan, SLES,
chlorhexidine, products
of animal origin

Intended for healthy
gum maintenance

SENSITIVE

Sensitivity Reduction and Enamel Restoration

Gently removes plaque, whitens & polishes the enamel

Innovative SP.WHITE system

NATURAL PAPAYA ENZYME PAPAIN cleaves the peptide bonds of protein molecules in dental plaque, softening the buildup for easier removal. PVP (POLYVINIL-PYRROLIDONE) promotes the dissolution of the protein-lipid base of dental deposits. As a film-forming component, it covers teeth with a protective layer that supports long-term cleansing. **ROUNDED POLISHING PARTICLES OF SILICA** polish tooth enamel to a radiant shine

Fluoride-free

Free from: SLES, chlorhexidine, saccharin, synthetic colourants, products of animal origin

Perfect for enamel restoration

SP.WHITE
SYSTEM
WHITENING
FORMULA

Remineralization & enamel restoration

HYDROXYAPATITE

close to composition to the substance which enamel consists of. Restores smooth of teeth, completes loss of minerals, reduces sensitivity

DICALCIUM PHOSPHATE DIHYDRATE

a soft abrasive, which has a remineralizing effect and reduces tooth hypersensitivity

Soothing effect on gums

BLUE CAMOMILE ESSENTIAL OIL, SPANISH LEMON ESSENTIAL OIL, BIOSOL, WALNUT LEAVES EXTRACT

TOCOPHEROL (VITAMIN E) AND ASCORBYL PALMITATE (VITAMIN C)

work together to fight free radicals, strengthen your gums, promote collagen production, and maintain good bacteria levels for a healthier mouth

LAVENDERSEPT

Tooth Sensitivity Reduction and Promotion of Healthy Gums

**Gently removes plaque,
whitens & polishes the enamel**

NATURAL PAPAYA ENZYME PAPAIN
cleaves the peptide bonds of protein
molecules in dental plaque, softening
the buildup for easier removal.
ROUNDED POLISHING PARTICLES
OF SILICA
polish tooth enamel to a radiant shine

Fluoride-
free

Free from: SLES,
chlorhexidine, fluoride,
products of animal origin

Intended for total oral
care & sensitivity
reduction

Sensitivity reduction

DICALCIUM PHOSPHATE DIHYDRATE
a soft abrasive, which has a
remineralizing effect and reduces tooth
hypersensitivity

Fresh breath

ZINC CITRATE
multifunctional ingredient, helps
freshen breath by reducing the impact
of odorous compounds produced
in our mouth by bacteria and reduces
the risk of gum disease

BIOSOL
(o-Cymen-5-ol)

Promote gums health

**LAVENDER ESSENTIAL OIL,
ROSMARIN ESSENTIAL OIL, THYME
ESSENTIAL OILS**

Reduction of tartar formation

**TETRASODIUM GLUTAMATE
DIACETATE**
