

INGREDIENTS: 100% Organic Black Tea (special Indian blend), Marigold Petals & Bergamot Essential oils.

DIRECTIONS

For best results, place one bag per person in a warm tea pot (preferably one only used for herbs); add boiling water and allow to infuse until desired strength is reached. Alternatively, infuse directly in a cup or mug. If you would prefer slight sweetener why not add a little honey – can also be served chilled.

Herbs that are skillfully processed lack only one constituent of the fresh plant – water. The care with which our farmers grow, dry and cut their crops ensures that this tea will meet the quality requirements – fragrance, flavour and vitality – of the most discerning palate.

Hambleden Herbal Teas are made with 100% organically grown ingredients. Guaranteed free from post harvest treatments such as fumigation & irradiation, they contain no colouring, flavourings, preservatives or additives of any sort. Carton made from recyclable card.
