

Magic Magnesium™ Taurate 875 mg

MAGNESIUM TAURATE

Magnesium is a metal. Magnesium in food supplements will always be bound to another substance. In the body, magnesium and the substance it is bound to are separated. The amount of magnesium metal obtained is called elemental magnesium, and it is the amount of elemental magnesium that is declared on the back of the box. In magnesium taurate, magnesium is bound to taurine.

MAGIC MAGNESIUM

The magnesium source in this tablet is supported by a herbal extract of maritime pine bark. The maritime pine bark helps maintain the microcirculation.

875 mg magnesium taurate per tablet is equal to 140 mg elemental magnesium per daily dose.
