### collagen Blend caps/300ml / label size 78x210mm

Collagen is the most abundant protein in the human body and is the component of skin, bones, muscles, cartilage, ligaments and connective tissues. Collagen is the substance that holds the body together and forms a bond to provide strength, elasticity and structure. Our marine collagen is made from 100% purified hydrolysed collagen, extracted from sustainably sourced wild fish off the coast of France by a responsible MSC certified fishery. It is enzymatically processed to keep the peptides intact which are fully digestible and gentle on the gut due to their low molecular weight. Our Marine Collagen Beauty Blend contains natural vitamin C from Organic Camu Camu Powder and Organic Acai Powder and Hyaluronic Acid.

Best before end: See base. Storage: Store in a cool, dry place away from direct sunlight. Refrigeration is not required.

Food supplements should not be used as a substitute for a varied diet. Keep out of reach of children. Do not exceed the recommended daily dose.

Naturally free from wheat, gluten, lactose and dairy Non - irradiated and non GMO
