

HayMax Kids

HayMax

Hay Fever? Dust or Pet Allergy?

NEW Sugar Free
Come For

Suitable for: toddlers, children and adults, including pregnant and breast-feeding women (& cynics!). HayMax™ is drug-free and can be used at school.

Directions: Rub a small amount around the rims of both nostrils and the bones of the eyes (but not too close or in the eye). Re-apply regularly and after blowing nose. This helps trap pollen, dust and pet allergens before they get in. For further information and a video go to haymax.biz/how-to-use-haymax.

Ingredients: Helianthus annuus (sunflower) seed oil, cera flava (beeswax), tocopherol (vitamin E).
Ingredients organically produced.
Ingredient naturally produced.

Contents: 5ml.

Always consult a doctor concerning any medical condition. Do not take HayMax™ internally. Do not swallow.

MD If adverse reactions occur, stop using and report to HayMax.
