

tishoo®

Black

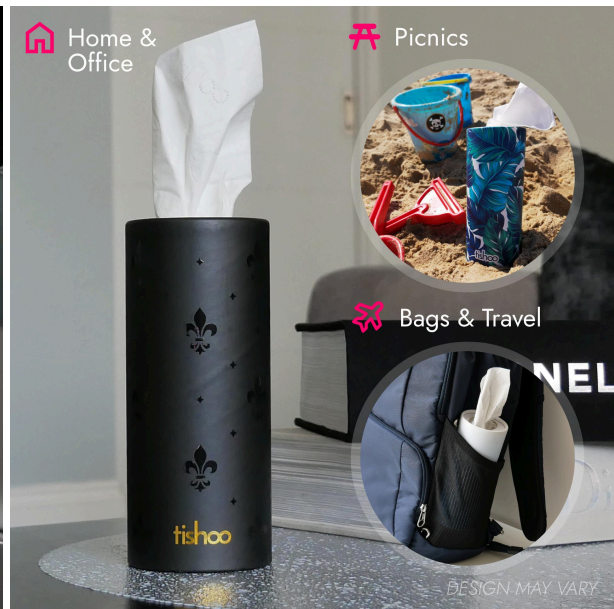

- **ON THE GO CONVENIENCE** - Our signature tube-shaped tissues effortlessly slide into your car's cup holder, your child's car seat or your backpack. Bid farewell to disarray with our tishoo tubes that not only keep tissues at hand but also morph into a handy recycling bin once empty!
- **SUPREME SOFTNESS, LIKE NO OTHER** - Our unique 4-ply sheets are infused with moisturiser - so your skin is never left feeling sore or dry, no matter how often you use them. Silky and soothing to touch, you'll wonder how you ever settled for anything less.
- **CHIC & COMPACT FOR HOME** - Add a splash of colour to any room with our beautiful and eye-catching designs. Treat your lounge, bedside table or bathroom to a stylish accent - and when you're done, repurpose them as a chic pen holder or makeup brush caddy. Practicality never looked so good!
- **COMMITTED TO COMMUNITY & ENVIRONMENT** - As a proud family business, we believe in giving back. We donate 10% of our profits to local charities fighting poverty, and actively support our neighbourhood food banks. What's more, our tubes are consciously packaged with the environment in mind, with no plastic wrapping in sight.
- **REFILL/REUSE** - Sold separately, use our metal caps as removable bases or convenient lids, allowing you to refill the tube or convert it into a beautiful container for home and travel.
- **SPECS** - 40 4-ply sheets per tube. Tube dimensions: 16.5cm (height) x 7cm (diameter), tissue dimensions: 18cm x 15cm approx.
