Version: 1 Page **4** of **5** 

Flavour / Aroma	Floral, fruity and refreshing. Subtle flavours wit the distinctive flavour of elderflower, balanced by lemon juice and cucumber.	
Packaging	As detailed above	

НАССР							
CCP's	Critical Limit	Monitoring (Procedure & Frequency)	Corrective Action Procedure				
CCP1 – Filter check	No physical contaminants in the product	Visual inspection completed at start of day and at end of day to ensure the filter is intact.	If damaged before start process, replace the filter.  If damage after batch complete, quarantine the batch, replace filter and put product back through the functioning filter				
CCP2 - Glass bottle inspection & rinsing	No breakages so no contamination of glass in finished product	On delivery of glass bottles check no signs of damage to outer packaging.  When putting in storage or taking from storage, check no signs of damage to outer box or bottles.  During use in the process, check for any chips/breakages.  For 100mls, each bottle is inverted over a tray before filling.  For 1Ls each bottle is rinsed before filling.	Reject delivery if damages found.  Follow our glass bottle procedure to ensure any finished product is safe.
