PROCESS: CLARIFIED

ORIGIN: CORNWALL, UK

VARIETY: BRITISH GRASS-FED COW'S MILK

HEAT: LOW-HIGH

SMOKE POINT: 250°C

Organic British Grass-Fed Ghee

Our Organic Grass-Fed Ghee is warm and rich, with flavour notes of butterscotch that will elevate any dish. Made by gently heating butter to clarify the PHAT, removing the milk solids and leaving you with pure butterfat that perfectly captures the rich taste of Grass-Fed Organic British Butter.

This PHAT is super versatile, with a high smoke point to get that rich, buttery flavour without the risk of burning. Roast your favourite joints, fry and splutter your crispy eggs, or temper your tarka for the ultimate authentic Indian curry. Gently melt with some garlic and herbs for the perfect buttery dip to go with your warm asparagus, or use in baking to replace seed oils for a moist, decadent cake.

Perfect For

Buttery fried eggs, bolognese, curries, tarka dal, Middle Eastern cooking, Sunday roasts, stir-fried greens, Turkish eggs, hollandaise, béarnaise, poaching lobsters, resting meats, bulletproof coffees, Japanese tare, cooking burgers.
