The Masoala Peninsula, Madagascar, is one of the three most species-rich habitats in the world, with many birds & animals found nowhere else in the wild. Through additional financial contributions, this bar proudly supports the MaMaBay Conservation Through Cocoa Project on the peninsula. The aim is to regenerate 200-300 hectares of deforested land back into the tropical rainforest it once was by planting high-quality cacao trees alongside native vanilla, cloves and hardwoods. See the inside wrapper for more information.
