**REUSABLE BAMBOO
CLEANSING PADS**

10 Reusable Bamboo
Cleansing Pads

Reusable bamboo cleansing pads to gently remove makeup and impurities or apply your toning mist.

Kind to your skin but also to the planet, as these eco-friendly pads can be washed and reused.

Made of naturally antibacterial and hypoallergenic bamboo, which is a fast-growing, biodegradable plant, they feel silky soft on the skin.

100% Natural Bamboo.

DIRECTIONS:

Apply your favourite cleanser or toning mist and gently sweep over the face, eyes and neck.

CARE INSTRUCTIONS:

After use, place the pads in the mesh laundry bag and wash them in the washing machine with your light coloured clothes on a warm wash (up to 40°C, 104°F) with a gentle detergent. Allow to dry naturally and store in the compact storage bag.

Do not use fabric softener or bleach when washing your pads as this may damage the bamboo fabric.
