Littleover Apiaries®

All of our honey is cold extracted, cold Filtered and unblended to protect the natural proteins and enzymes in this premium honey. Our hives are situated in an area of Certified Organic wilderness, far from any source of pollution on New Zealand's beautiful South Island. An area, renowned for its unspoilt natural beauty. This habitat is a vital source of food for some of the world's rarest insects and creatures. We ensure that we farm in a sustainable and responsible manner while producing this delicate honey. Littleover Apiaries are committed to sustainable organic farming while producing this honey and the care of our planet.

All good honey may crystallise or set during storage. If this should occur please warm gently to return to its liquid form.
