The LoofCo

Up Scraper is an traditional use

husk of a coconut. This LoofCo Washing-Up Scraper is ideal for removing baked-on food from pans and baking trays.

To Use: Rinse thoroughly before first use. Immerse in warm water and use with washing-up liquid or LoofCo Washing-Up Soap. Soak baked-on food first. Use the Scraper to lift off food residue. The curved blade-like edge at the front, the robust corners at the back & the fibrous coir fibres underneath tackle dirty pans with ease. After use, rinse and hang up to dry from string loop. If the bristle-like edge of the Washing-Up Scraper starts to fray, trim with scissors back to a solid edge for months more use. When worn out, your LoofCo Washing-Up Scraper can be composted. Made in Sri Lanka from coconut husk & cotton string. Using the traditional skills of small cottage industry producers, waste coconut husks are turned into LoofCo products. Size and colour of scrapers will vary due to the natural source of this product. See the whole range of sustainable, plastic-free home cleaning and personal care products at www.loofco.co.uk.

range of hand-brushes, cloths home cleaning care made from fibres, mainly coconut.
