

## Why we love our dispensers

We love our reusable dispensers because they last as long as you take care of them. This bottle will help you to eliminate plastic waste from your home - simply fill with your favourite Bower product and return your pouch to us in the supplied pre-paid envelope to be responsibly recycled.

We know that accidents happen, so please get in touch with our Customer Happiness team if your pump or spray head breaks and we would be happy to replace it for you and ensure any broken components are properly recycled.

---

## How to Use

Simply empty your refill into the dispenser.

## How to clean:

Be sure to wash the dispenser thoroughly in between use with a small amount of washing up liquid and warm water. Hand wash or remove the pump and silicone sleeve for dishwasher cleaning.

**Top tip** - soak vinegar in tissue and wrap around the top of the silicone to remove limescale residue if this builds up on the bottle over time.

---

## Eliminating ocean-bound plastic

**With every Bower order we work with our partners CleanHub to prevent ocean-bound plastic waste.**

We have committed to stop 10,000 kgs of non recyclable plastic from entering our oceans this year. Bower Collective enables the safe collection and recovery of ocean bound plastic waste, working directly with waste-picking communities in Kerala, India. Your contribution, through your order, supports clean environments and creates sustainable jobs in the global south.
