

# RADEK'S CHOCOLATE

This bar is made with ethically sourced cacao grown by farmers respecting human rights, biodiversity and cocoa forestry. Our chocolate is made in micro batches which are stone-ground for three days, blending our specially sourced cacao with coconut sugar, cocoa butter, lucuma, Lion's Mane and vanilla before we temper and finally wrap the bars.

Radek's Chocolate are proud to have combined forces with Bristol Fungarium to offer this Lion's Mane chocolate bar. The team at Bristol Fungarium grow the only native lions mane in England, cloned from an indigenous specimen found just 500m away from their mushroom farm in Somerset. Blending the uplifting effects of our ethically-sourced cacao with Bristol Fungarium's locally grown and comprehensively extracted Lion's Mane powder provides a perfect meeting of ingredients that are full of antioxidants, betaglucans and unique compounds that are beneficial for cognition, mood, focus and energy.
