### THE SUSTAINABLE CHOICE

Peas are a sustainable crop using less water and less land than other protein sources. Our water-based isolation process is chemical-free and all water is purified and recycled. Any waste goes to animal feed and biofuel. Better for you, better for the environment.

### HOW TO ENJOY

Take one or two servings per day depending on diet and activity level.

Add 1 sachet (25g) to a shaker containing 350mL or more of liquid (e.g. water or your favourite milk) and shake.
