ecozone®
Since 2000

multi-purpose kettle & iron descaler

- ✓ Cleans & descales appliances, effectively removing limescale build-up.
- ✓ Protects & maintains, keeping appliances performing at their best.
- ✓ Odourless, residue & taste free.
- ✓ Made with an eco-conscious formula.

How to use

For kettles

1. Fill kettle half way & boil.
2. Once kettle has boiled,
add 1 sachet to the boiled
water.
3. Wait for 30 mins then
rinse kettle several
times to get
rid of limescale
flakes & residue.

For irons

1. Add 400ml of boiled
water to a measuring jug.
2. Dissolve the contents of
1 sachet in the boiled water.
3. Allow to cool, then
carefully pour the solution
into your iron & steam
through until empty.
4. Refill iron with fresh,
clean water & steam
through until empty.

**made
in Britain**

Using a descaler regularly will ensure appliances are kept in top condition & allow them to function efficiently & properly. Limescale can easily damage heating elements which can be a cause of premature malfunction. Ecozone recommends descaling appliances once a month.

More about our Kettle & Iron Descaler

Ecozone's Kettle & Iron Descaler effectively **removes limescale** build-up from the inside of appliances, keeping them performing at their best. The solution is also **odourless, taste-free** & ensures **no residues** are left behind.
