

Aloe Ferox /500ml / label size 75x230mm

The Aloe Ferox plant is an incredibly robust plant that grows in the natural and wild environment of the untamed Cape region of South Africa. The natives have used it as a medicinal plant for over 200 years. Compared to the more widely known Aloe Vera, Aloe Ferox produces 20 times more bitter sap and does not need to be filtered or diluted, meaning that all the natural active elements are preserved. KIKI's Organic Aloe Ferox Juice contains a natural source of calcium which contributes to the normal function of digestive enzymes, maintenance of bones and teeth, and normal muscle function.

Storage: Unopened - keep in a cool dark place.
Once opened - keep refrigerated and consume within 6 weeks.

Food supplements should not be used as a substitute for a varied diet.
Keep out of reach of children. Do not exceed the recommended daily dose.

Suitable for vegetarians and vegans. Naturally free from gluten and wheat.
NO ARTIFICIAL COLOURS, SWEETENERS OR FILLERS
