

# ORGANIC WHEY PROTEIN

\_\_\_\_\_

### **BANANA & LUCUMA**

## FREE FROM ULTRA PROCESSED RUBBISH

Our organic whey protein powder is made without chemicals.

Filtered fresh whey from cheesemakers using organic milk from cows grazing on grass pastures. Turning waste into quality highly bioavailable protein, providing your body with rapid support from head to toe.

#### INGREDIENTS

Organic whey protein concentrate from organic milk (54%), organic drum dried banana powder (44%), organic lucuma powder (2%)

#### DIRECTIONS

Mix one serving (37.5g) with 100ml water or 150ml milk in a blender for a few seconds, shake vigorously in a hand shaker for 30 seconds, or use a handheld milk frother. Add the liquid first to prevent lumps. Use as needed or 1-2 times daily. If you're using a blender, you may need to add more liquid. A great addition to yoghurt, smoothies, & oats. 37.5g is roughly equivalent to 3 of our scoops, 5 level tablespoons, 90ml, or 0.38 cup. For a precise measurement please use scales.

Over-diluted bananas don't taste good, so less liquid = The best taste
