ENERGY & AGEING

Every cell in our body needs energy to live & function e.g. brain, skin & muscle cells.

We need new cells to replace old worn out cells.
Making new cells requires a lot of energy.

More energy = more new cells replacing old cells
= better health & slower ageing

DISEASE

Old worn out cells & mitochondria malfunction contribute to diseases;

e.g. Diabetes, Parkinson's, Alzheimer's, Long Covid, ME & Chronic Fatigue.

Healthy cells & healthy mitochondria support healthy ageing.

NAD FUELING OUR CELLS

Mitochondria are the powerplants in all cells, they use NAD to make energy.

Our cells make NAD, unfortunately we make 80-90% less as we get older.

Low NAD = Low energy production

Low Energy = Few new cells made
= Old worn out cells

YOUNGER & FRESHER NATURALLY...

Contains NMN NAD Alpha GPC
Citicoline PQQ CoQ10 vitamins & minerals, to feed our mitochondria

*Cognition, Mood & Stamina Complex

NeuroAlpha and NeuroCholine are both natural precursors to Acetylcholine & Phosphatidylcholine.

- Acetylcholine is the main neurotransmitter for Attention, Learning & Memory
- Helping Mood and Muscle Strength
- Phosphatidylcholine helps form new brain & heart cells. It also helps healthy cholesterol metabolism

Theacrine & Methylliberine are both natural cousins to caffeine, found in some green tea varieties.

- They reduce caffeine's side effects e.g. jitter and crash
- Improving natural Energy, Stamina and Focus
