FORMULA OVERVIEW

Harvested from the Brazilian Amazon, this supplement captures the energetic essence of guarana in a pure, controlled form. Two capsules supply 1000 mg of organic guarana powder, offering a natural source of caffeine with a steady release thanks to its tannin content. The powder is finely milled and blended only with organic brown rice flour before being encapsulated in a vegan hypromellose shell, preserving the character of the plant without synthetic additives. One serving equals two capsules, and each resealable pouch contains 45 servings, making it easy to integrate into daily habits and travel routines. This measured, taste free format allows you to enjoy guarana’s energising qualities without sugary drinks or bulky powders. Produced in the EU using non-GMO ingredients under GMP standards, the supplement reflects Alpha01’s commitment to clean, plant led formulations and mindful energy support.
