

# Org. Cordyceps /150ml / label size 57x170mm

L229

Our Organic Cordyceps Mushroom Extract Powder is obtained by extraction of the mushrooms fruiting bodies, which are proved to be much richer in active ingredients and more abundant in beta glucans than mushrooms extracted from mycelium. Temperature-controlled technology is used to extract the potent bio-active components found inside the mushroom cells; the advanced production method supports the highest levels of active nutrients to be captured. Our organic cordyceps mushrooms are innovatively grown on vegan substrate to ensure maximum concentration of nutrients. The extract is standardised to an impressive 50% polysaccharides content and contains a significant amount of triterpenes, sterols and polyphenols.

**Best before end:** See base.

**Storage:** Store in a cool, dry place away from direct sunlight. Refrigeration is not required. Food supplements should not be used as a substitute for a varied diet. Keep out of reach of children. Do not exceed the recommended daily dose. Suitable for vegetarians and vegans. Naturally free from gluten and wheat. NO ARTIFICIAL COLOURS, PRESERVATIVES, SWEETENERS OR FILLERS

### MUSHROOM EXTRACT

60 vegetarian capsules	From 100% Fruiting Bodies
food supplement	400mg e

## KIKI HEAL<sup>+</sup>H

**Directions for use:**  
Take 2 - 4 capsules daily with meals according to individual needs.

**Ingredients:**  
100% Organic Cordyceps (*Cordyceps militaris*)  
Mushroom Extract from fruiting bodies (400mg)  
Shell Capsule: Hypromellose

**Botanical Information**  
Beta-glucan rich polysaccharides 50%

Our Cordyceps extract is produced entirely from the fruiting bodies of the mushrooms (not from mycelium), which is why they are loaded with beta-glucan rich polysaccharides and other precious functional ingredients.
