

THE CHAMPAGNE OF KOMBUCHA

Jun is known as the "Champagne of Kombucha" due to its delicate taste. As it is fermented with raw honey, instead of cane sugar, it has a smoother, lighter flavour profile without the vinegar taste commonly found in Kombucha.

Nunc is an honest brew, with no hidden ingredients, extracts, chemicals or anything artificial. So, kick back, relax, and savour the refreshing all natural goodness of this aromatic, floral taste sensation.

TASTY. REFRESHING. ALL NATURAL

CONTAINS < 0.5% ALCOHOL
