NMN | Nicotinamide Mononucleotide

500mg of β-NMN per Capsule

Nutripact NMN provides 500mg of bioactive β-Nicotinamide Mononucleotide (NMN) per delayed-release capsule. Formulated using advanced HPMC delayed-release technology, it is designed to protect NMN through the stomach and deliver it further into the digestive tract.

NMN is a precursor to NAD⁺ (Nicotinamide Adenine Dinucleotide), a naturally occurring coenzyme involved in cellular energy metabolism. As consumer interest in healthy ageing and longevity continues to grow, NMN has become one of the most sought-after ingredients within the premium wellness category.

WHY STOCK NUTRIPACT NMN?

500mg β-NMN in each Capsule
High-strength bioactive NMN in every capsule.

Strong Repeat Purchase Potential
60-day supply encourages consistent repurchases.

Delayed Release Capsules
