

Vitamin D3 + Turmeric

Daily oral spray

Encapsulated formulation – no need for black pepper

Supports the immune system

Maintains normal bones

Aids muscle function

32 daily doses

The science

BetterYou Vitamin D3+Turmeric Oral Spray is a highly effective and innovative solution for immune support, bone and muscle health.

Turmeric can be difficult to absorb, particularly in the stomach due to its hydrophobic nature. BetterYou's unique encapsulation process extracts the active ingredient (curcuminoids) found within Turmeric and encapsulates them in a hydrophilic coating, making them water soluble and easy to absorb.

Scientifically formulated to deliver the nutrients directly into the bloodstream, the tiny droplets within the spray absorb quickly via the buccal membrane of the inner cheek, providing fast and effective nutrient uptake, bypassing the primary processing by the gut.

Vitamin D supports a normal immune system

Vitamin D aids normal muscle function

Vitamin D maintains normal bones and teeth

Research in association with Cardiff University

Our work with Cardiff University has produced a nutritional delivery system that provides an effective and convenient alternative to tablets and capsules. This product has been absorption tested by Cardiff University proving absorption of our encapsulated formula.

Ingredients

Water, sweeteners (xylitol and steviol glycosides from stevia), curcumin (turmeric root extract (curcuma longa) γ -cyclodextrin), humectant (glycerol), medium chain triglycerides, emulsifiers (acacia gum and sunflower lecithin), acidity regulator (citric acid), preservative (potassium sorbate), natural flavouring, cholecalciferol (vitamin D3), thickener (xanthan gum).

Advisory information

Do not exceed recommended dosage. Contains xylitol – excessive consumption may produce laxative effects.

Food supplements should not replace a healthy diet and exercise.

Keep out of reach and sight of children.

Planet-friendly product

The carton is made of material from well-managed, FSC®-certified forests and other controlled sources.

The bottle is made from plant-based Green Polyethylene (PE), and post-consumer recycled plastic (PCR)

This product is certified free from any palm oil and palm oil derivatives.
