Pure. Natural. Taste.

Regular table salt is typically stripped of minerals, bleached and mixed with unnatural anti-caking agents.

Our Celtic Sea Salt is hand-harvested on the French coast using ancient practices and packaged in the Cotswolds. Naturally lower in sodium than table salt, each crystal absorbs the earth's essence, capturing essential minerals.

Finely ground and pure in taste, enhance every meal with added minerals like magnesium, zinc and potassium. Light grey in colour, encapsulating the essence of the Celtic Sea in each grain, with no additives.
