SAY HELLO TO FLAWLESS SKIN

No Slip Skincare Tool

Safely and gently remove blackheads and whiteheads with this stainless steel dual sided tool. Essential for your skin care routine including a no slip grip for added comfort and control.

FEATURES & BENEFITS:

- Removes blackheads and whiteheads safely and hygienically, as using fingers can cause scarring or infection.
- Long, flat loop specially designed to gently roll out mature white heads.
- Smaller, angled end designed to effectively press out blackheads without damaging skin.
- Textured body provides a no-slip grip for added comfort and control.
- Premium quality stainless steel is durable and easy to clean.
- Dermatologist tested.

HOW TO USE:

1. Use with extreme care. Before use, sterilize tool with alcohol or antibacterial soap and hot water. Use warm water or steam to help open pores. Use only on pre-cleansed skin, moisturize before and after use.
2. To remove whiteheads, center the blemish within the larger flat loop. Press down to release debris, then gently glide the loop to remove.
3. Use the smaller, angled loop to gently press out blackheads. Center the blackhead within the loop, the curve side facing up. Press down to release debris, then gently glide the loop to remove.
4. Sterilize tool after use with alcohol or antibacterial soap and hot water
