Sea Moss Capsules - UK

57x170mm

5 060018 515496

Our Organic Sea Moss is made from organic whole carrageen leaf that has been sustainably harvested on a beautiful island off the west coast of Ireland. Before being encapsulated into vegan capsules, the sea moss was gently air-dried at low temperatures and milled into a fine powder. Our capsules contain only 100% dried organic sea moss which naturally provides a high source of plant-based iodine.

Best before end: See base
