

MELEA

MONASTRELL 2022

Named after the rare bee Anthophora Melea, this organic and vegan wine is made without toxic pesticides that can harm bees and other insects. Bees not only pollinate wild flowers in the vineyard, but also provide natural yeasts used to ferment organic wines like this one.

It's in everyone's interest to keep them around in good numbers.
Tasting notes: Fresh and juicy aromas, with a palate brimming with delightfully supple dark berry fruit.

Elaborado y embotellado para Long Wines, S.L., 28702 España por R.E. 6339 MU, 30520 Jumilla (Murcia).
 Certified Organic by: ES-ECO-024-MU
