Hyaluronic Shot[™]

SEA BUCKTHORN

SEA BUCKTHORN
Sea buckthorn is a shrub that grows
near the sea in calcareous soil. Sea
buckthorn has been used for thousands
of years especially in China and is also
found on the Danish coasts. In Denmark,
the berry has been nicknamed "The
Norden Lemp"

Water, sweeteners (maltitol, steviol glycosides from stevia), collagen (fish), acidity regulator (citric acid), seabuckthorn extract (Hippophaë rhamnoides, L), lutein, flavor (orange, lemon), sodium hyaluronate, emulsifier (soy lecithin), thickener (gum acacia). For allergens: see ingredients in bold.

BEAUTY FROM WITHIN

Hyaluronic Shot™ is a hyaluronic acid and collagen sachet, pre-mixed and easy to take with a natural fresh citrus flavour, formulated in the perfect dose and designed to fit effortlessly into your everyday beauty routine. Hyaluronic Shot™ contains hyaluronic acid, premium hydrolysed freshwater marine collagen combined with lutein and sea buckthorn extract. For exceptional results combine with New Nordic Hyaluron Active cosmetic series in a complete Beauty In and Out™ routine. A quality that works in harmony with your body.

Take 1 sachet a day. Simply tear open, consume orally straight from the sachet. Food supplements are intended to supplement the diet and should not be a substitute for a varied diet or healthy lifestyle. Do not exceed the stated dose. Caution: As with other food supplements, consult your doctor before using if you are under medical supervision, taking medication, pregnant or breastfeeding. Warnings: Not suitable for children under 12 years of age. Keep out the reach of young children. Do not use if sachet is torn or tampered with. With sweeteners. Excessive consumption may produce laxative effects.

WHAT IS HYALURONIC ACID?

Hyaluronic acid is a molecule that is found naturally in our body. The skin loses fullness as the level of hyaluronic acid - a natural occurring moisturising substance in the skin - decreases with age, which is one of the reasons why our skin begins to wrinkle and sag.

SEA BUCKTHORN

Sea buckthorn is equated to liquid gold, sometimes called seaberry, a tiny, bright orange berry that helps maintain healthy skin from within. Interestingly enough, sea buckthorn doesn't grow in the sea or even necessarily alongside it. Instead, it thrives in cool temperatures and it actually boasts a very long history of internal and topical uses in countries where it's found naturally.

New Nordic specialises in herbal supplements and beauty products, resulting in innovative, effective and pure products that work in harmony with your body. We believe using tablets and skin care products with the same active herbal ingredients is a great way to care for your skin both inside and out. A new and holistic way of taking care of your skin. With this new beauty routine, the skin is treated both from the inside and out, and that is exactly what Beauty In & Out™ is all about. A new and revolutionary beauty treatment that gives amazing and extraordinary results.
