

Maca is an ancient Peruvian root that Incan warriors were said to have consumed for stamina and endurance. It is considered an adaptogen because it helps the body 'adapt' to physical and emotional pressures. We combine the different coloured roots to offer a more complete nutritional profile than the standard yellow Maca. It is also gelatinised; a process that promotes the bioavailability of the Maca. These capsules are vegan friendly and do not contain gelatine.

HELP US SAVE THE RAINFOREST

Rainforest Foods works with Rainforest Concern (charity no.1028947) to conserve threatened forests; protecting endangered habitats, the wildlife and indigenous peoples. For every pack sold, Rainforest Foods will fund the protection of one square metre of rainforest. For further information visit: www.rainforestconcern.org
