

BLACKCURRANT EXTRACT

30 CAPSULES / 30,000mg

New Zealand Blackcurrant Extract – 35% Anthocyanins – 30 Vegan Capsules (1 Month Supply) – Resealable and Recyclable Pouch by Alpha01

PRODUCT DESCRIPTION

Blackcurrants are a deliciously sweet berry with a distinctive dark purple colour. While they are grown all over the world, those sourced from New Zealand contain the richest source of active compounds. This advanced product contains the botanical equivalent of 30,000mg of New Zealand Blackcurrant in every single capsule, providing 105mg of naturally-occurring anthocyanins.

Herbal Supplements

Vegan

FORMULA OVERVIEW

Distilled from New-Zealand blackcurrants, this high strength extract offers an intense burst of anthocyanins in a minimalist format. Each capsule supplies the equivalent of 30,000 mg of blackcurrant fruit, standardised to 35% anthocyanins for a deep purple hue and robust flavour profile. A 100: 1 extraction captures the fruit’s vibrant colour and rich antioxidants while minimising volume; the resulting powder is combined only with microcrystalline cellulose, rice starch and safflower oil to support encapsulation. One capsule equals one serving, and the resealable pouch contains 30 servings, keeping doses precise and travel ready. The plant based hypromellose shell ensures a vegan, taste free experience that integrates easily into daily rituals without altering the flavours of food or drink. Made in the EU from non GM ingredients under GMP standards, this supplement reflects Alpha01’s focus on purity and wellbeing.
