Bioavailable and Skin-Soothing

Ingredients:

Adeps bovis (tallow), Simmondsia Chinensis (jojoba) seed oil, cera alba (beeswax), Mica CI: 77019, Titanium Dioxide CI: 77891), Iron Oxides CI: 77491 CI:77492, Tin Oxide CI: 77861.

What's New

We have taken everything you loved (and all your feedback) to produce our new and improved Selfie Stick Range. Now, it is more functional, versatile, and better for you—because you are our inspiration and focus in the first place!

Premium Packaging - A sleek, minimalist design for mess-free application.

Improved Recipe - Now formulated with beeswax for a solid, travel-friendly texture.

Versatile for all - Combined formulas in 8 variants to complement every skin tone, shade, and need.

How to Use

Apply a light layer of the Selfie Stick Dew on the cheeks, lips, or eyelids for a soft, peaches-and-cream glow. Build up as desired for a more luminous, radiant finish that enhances your natural vibrance.

By feeding your skin with natural tallow, you're nourishing it with Vitamins A, D, E, and K in their most bioavailable form. This recipe not only adds a dewy touch of colour but also hydrates and soothes the skin, leaving it fresh, healthy, and beautifully glowing.

Storage

Store in a cool dry place and avoid exposure to direct sunlight.

Disclaimer

All ingredients in our products are 100% natural.

All our products have a safety cosmetic report.

However, with any new products for your skin, please always check the ingredients for any allergies.

If you are unsure, always do a small patch test to ensure that you don't react to any of the ingredients.

If irritation does occur, then discontinue use.

Our Selfie Sticks are tallow-based, which are naturally derived from beef fat. A characteristic scent may be present, which is a normal attribute of high-quality, unrefined animal-based ingredients; however, this does not affect the quality of the product.

As this is part of the ingredient's natural profile, we do not offer refunds for scent-related reasons.
