

ELECTROLYTE COMPLEX

180 TABLETS / 400mg

Electrolyte Complex - 180 Vegan Tablets - High Strength with Magnesium, Chloride, Potassium & Calcium - Muscle Function and Electrolyte Balance - by Alpha01

PRODUCT DESCRIPTION

Designed to replace lost salts and minerals, this advanced Electrolyte Formula can be taken after exercise, at the end of a long day, or for morning recovery. Magnesium contributes to electrolyte balance, normal psychological function, and the reduction of tiredness and fatigue. Calcium contributes to normal muscle function and neurotransmission. Potassium contributes to the normal function of the nervous system, and the maintenance of normal blood pressure.

FORMULA OVERVIEW

Designed to support balanced hydration with no difficulty, this complex combines key electrolytes in a measured tablet. Each tablet supplies 980 mg of electrolytes drawn from potassium chloride, magnesium bisglycinate, calcium carbonate and sodium chloride. Gentle stabilisers and a plant-based glaze keep the tablets free from artificial colours or flavours, while the chelated magnesium bisglycinate promotes bioavailability. One tablet is a complete serving, and the resealable and recyclable pouch provides 180 servings with packaging designed to protect the tablets from moisture. With no powders to mix, these tablets offer a convenient, taste free way to replenish essential minerals during active days. Produced in the EU with non-GMO ingredients under GMP standards, they align with Alpha01's values of simplicity, transparency and consistent quality.

- ✓ **Form** - Tablets
- ✓ **Serving Size** - 980mg / 1 Tablet
- ✓ **Number of Servings** - 180
