## FORMULA OVERVIEW

Sourced from Cinnamomum verum trees in Sri Lanka, this supplement delivers the sweet, delicate flavour of true Ceylon cinnamon in a convenient capsule. Two capsules provide 1400 mg of organic cinnamon bark powder, offering low coumarin levels and a warm aroma that evokes traditional spice markets. The bark is gently dried and finely powdered before being combined with organic brown rice flour and enclosed in a plant based hypromellose shell, preserving its authentic scent without additives. One serving consists of two capsules, and 45 servings are packaged in a resealable, recyclable pouch to maintain freshness. This measured, taste free format allows you to enjoy true cinnamon's character without the mess of loose powders or the sweetness of desserts. Made in the EU with non GMO ingredients and produced under GMP standards, it embodies Alpha01's modern, clean label approach to cherished botanicals.
