

BALMONDS

redefining natural skincare

Balmonds Daily Moisturiser: an gentle, unscented emollient cream

with shea, hemp + calendula

The Balmonds Daily Moisturiser USP

We took the herbs and oils used in our original Skin Salvation ointment and replaced the beeswax with shea butter, to make a softer, more-easily absorbed cream for daily use anywhere on the body, face, hands or feet.

Shea butter is full of skin-friendly vitamins and nutrients to support the healthy functioning of the skin barrier; its lipid makeup is beautifully in balance with the skin's natural oils and works to soften and hydrate dry or rough areas. Because the cream is totally unfragranced and gentle on sensitive skin - free even from natural essential oils which can sometimes cause irritation - it is also suitable for those who may be prone to eczema, psoriasis, dermatitis, rosacea, and other dry or reactive skin conditions.

Balmonds Daily Moisturiser is 99% natural, cruelty-free and Vegan Society certified

Key Ingredients

Shea butter: supports the skin barrier, softening & moisturising dry skin

Hemp: exceptionally rich in omegas 3 & 6 to nourish and moisturise dehydrated skin

Chamomile: known for its soothing properties

Calendula: renowned as an aid to skin cell regeneration

Nettle: nutrient-rich and naturally anti-inflammatory herbal tincture

Chickweed: high levels of beta-carotene, vitamin C and bioflavonoids

100 ml:
RRP £16

300 ml:
RRP £29
