Only the most prized parts of the plant are used All blends are created by a world-leading ethnobotanist Dr Stuart's has 15% less packaging than before HOW TO MAKE EXTRAORDINARILY GOOD TEA Use one bag for a cup, two for a mug. Pour on freshly boiled

water. Allow the tea to brew for a good four or five minutes the Active Botanicals need this time to release all their valuable essential oils. Cover the mug while brewing or use a little teapot to keep even more goodness in.

All Natural

Non Alloy Stapleless Teabags

Independent UK Company - proud to produce in our own UK factory

Fully sealed envelopes guarantees freshness and ideal if travelling

A detoxifying herbal infusion including dandelion root,

SAY HELLO TO DR STUART

As a leading ethnobotanist I've spent more than 30 years studying and using plants that are really useful to people. I know that for the best quality and flavour, only well-grown, carefully harvested herbs will do. That's why I'm personally involved in selecting and blending the 'pick of the crop' for all our extraordinarily good teas. In fact, the herbs inside are so good and bursting with flavour, I've called them 'Active Botanicals.'

of Dr.

is part of a range c r complete details p

WHAT ARE ACTIVE BOTANICALS?

Herbs of the highest quality, picked from the most prized parts of the plants, with the most essential oils. That means the most aromatic, flavourful and beneficial tea possible.

> ONLY THE BEST GO INTO DR STUART'S EXTRAORDINARILY GOOD TEAS.
