Effectiveness Inspired by Nature

Product Data Sheet

BioDenta Toothpastes

Art no: See table below

Effectiveness Inspired by Nature!

BioDenta™ is on a mission to create effective, natural and sustainable dental products.

We're driven by a passion for supporting your teeth and the environment, using knowledge from around the world to make our products outstanding.

Our products are manufactured from the natural and purest ingredients filled and packed in mono-plastic tubes with Caps that are to be recycled together, all for the environment. Recycled cardboard with non-alcohol inks.

This is a toothpaste range for every taste, need and moment; it comes in 4 versions.

TOTAL CARE Toothpaste fresh mint

- High performance formula with a blend of natural peppermint

SUPERWHITE Toothpaste fresh mint

- Enhanced whitening formula with a powerful stain removal system

SENSITIVE Toothpaste

- With potassium citrate and hydroxyapatite for repairing benefits.

Product Data Sheet

CHARCOAL WHITENING Toothpaste

- A powerful, low abrasion stain removal system to protect enamel.

Our products are:

- Sulphate Free
- Paraben Free
- Cruelty Free
- Vegan
- 98% natural

BioDenta is ofcourse not conducting any testing on animals.

Working mechanism in short:

Toothpaste loaded with new ingredient's that no-one has ever included in a toothpaste before – such as unique White Charcoal for absorbing toxins and bad odours, Hyaluronic acid for anti-inflammatory gum health and vitamin C for overall strength just to mention a few.

For whitening teeth Calcium peroxide dissolves, the protein pellicle on teeth that attracts stains to the tooth surface and holds them captive. When the protein pellicle is dissolved, all the stains that are adherent to the pellicle are gently removed from the teeth without harsh ingredients such as hydrogen peroxide.

Calcium peroxide's slow oxygen release properties also makes it an ideal, cost effective, shelf-stable and natural alternative for whitening teeth. Daily use of the toothpaste during weeks and months, the small amount of oxygen released, has a steady whitening effect without harsh abrasive or strong detergents. Our products are cruelty free, Sulphate free, 98% natural and vegan.

How to use:

How to use: Brush the teeth daily in the morning and in the evening for at least 2 minutes with the BioDenta range of Toothpastes.

Unique Competitive Advantages

- Whitens teeth within two weeks
- Strengthens enamel
- Freshens breath
- Protects against plaque & cavities (1450ppmF-)
- Unique 2-step flavoring system
