

FORMULA OVERVIEW

Modern supplementation meets convenience in these creatine gummies. Three soft, strawberry flavoured gummies supply 3600mg of micronised creatine monohydrate per serving, presenting an alternative to traditional powders. Made with glucose syrup and cane sugar, the gummies are set with pectin and coloured using strawberry juice concentrate to provide a vegan texture without gelatine. Each serving of three gummies is carefully measured, and the bottle contains 20 servings with a resealable lid to keep them fresh and portable. These gummies fit easily into an active lifestyle, allowing you to incorporate creatine into your routine without mixing or measuring powders. Made in the EU with non GMO ingredients and produced under GMP standards, they provide a clean, enjoyable way to support your performance goals while aligning with Alpha01's commitment to mindful formulation and intentional living.

CREATINE MONOHYDRATE

60 GUMMIES / 3600mg

Creatine Monohydrate Gummies 3600mg ~ Proven to Increase Physical Performance ~ Non-GMO, Halal ~ 60 Vegan Gummies ~ by Alpha01

PRODUCT DESCRIPTION

One of the most popular sports nutrition ingredients in the world, Creatine Monohydrate is proven to help increase physical performance. Creatine is a substance found naturally in muscle cells, and the monohydrate form is preferred for its high level of safety, efficacy and bioavailability. A daily intake of at least 3g of Creatine increases physical performance in successive bursts of short-term, high intensity exercise. Chew 3 of these delicious gummies before or after your workouts to take your performance to the next level.
