LIME JUICE NFC *from Organic Farming*

BOTANIC ORIGIN	CITRUS LATIFOLIA – CITRUS AURANTIFOLIA
COUNTRY OF ORIGIN	MEXICO, BRAZIL
GENERAL DESCRIPTION	The product is obtained from the juice extracted from the mechanical pressure of the wholesome and ripe fruit of the season.
INGREDIENTS	Natural Lime juice 100% from Organic Farming.

PRODUCTION PROCESS	Lime juice is stored in drums at -16°C, thawed by means of a crusher, stored in a refrigerated stainless steel tank and delivered to the bottling line. In the bottling phase, the juice is nitrogen hot-filled, the bottles are immediately capped and, through a conveyor belt, carried to the cooling tunnel. Here the sudden thermic change creates a vacuum of air in the bottle, which will guarantee the product preservation. The bottle are then dried with air flushes, labeled and packed as requested. Each processing step is conforming to the Good hygiene practice (GHP) and the Good Manufacturing Practices (GMP).
---------------------------	---

LEGISLATION	According to European Directive 2001/112 EC dated December 20th 2001. According to European Directive 852/2004 EC and 882/2004 EC (HACCP). Free from allergens (2003/89 EC – 2006/142 EC). A.I.J.N. compliant. Compliant with European Directive 1830/2003 EC and 1829/2003 EC regarding GMOs. Gluten free (Directive 89/2003 EC). According to European Directive 834/07 EC regarding produces from Organic Farming.
